A message from Jay

Dear neighbours and future members of the Westman Village Family,

At Jayman BUILT and Westman Village, we are doing our part to protect our customers, visitors, vendors, trades and employees to help slow the spread of COVID-19 across our province. We are closely monitoring the situation, taking guidance from the government, World Health Organization and medical professionals as we navigate this time.

Our showhomes will continue to operate during their regularly scheduled hours, Monday to Thursday 2:00pm to 8:00pm and Weekends 12:00pm to 5:00pm, but with heightened precautions in place.

We encourage all visitors and employees to replace a handshake with an elbow tap upon greeting. We do have washrooms in all showhomes that are well equipped with soap and disposable napkins. We encourage hand washing upon entering and leaving our showhomes, as well as keeping a wider than usual distance between yourselves and others when interacting. Our showhomes are professionally cleaned frequently. We have enhanced all of our cleaning protocols with a particular focus on high traffic areas. Most importantly, we ask that if you are feeling unwell, have recently travelled or been in contact with someone considered a likely or confirmed case of COVID-19, please refrain from visiting our showhomes at this time.

If you have questions, would still like to chat with a sales team member or tour a showhome "virtually" or had a previous appointment scheduled but are not able to attend, we would be happy to set up a virtual meeting with you. With technology, we can easily tour you through our showhomes virtually, schedule meetings and even complete paperwork.

If you have any questions, you can contact your Sales Representative to assist you.

To find out more about the virus and important safety measures, please visit Alberta Health Services [website](#).

Jay Westman
Chairman and CEO, Jayman BUILT
