Margaret is now in her late-80s and has been on her own for several years. After much debate with her family, she finally decided it was time to move out of her home of 35 years and look for someplace with services. However, she did not like the idea of renting in a typical seniors' residence and thought Odyssey offered her all the services she was looking for but with ownership peace of mind. They've signed up with the Inspired Living program and have someone do her housekeeping for 4 hours per month. Margaret is an early bird but her family wants some assurance she is sleeping well so The Journey Club calls her each morning for a conversation and medication reminder then has a healthcare aid attend to her for half an hour each night to ensure she is settled in. Cooking for herself has become more difficult and her children are also concerned about her diet and social engagement. They signed her up for the full meal plan at Bev's Diner to visit her many new-found friends in the community and catch up with the day's events. She pays \$2,235 (plus GST) for these personalized services.

Donna and George are both in their early 70s, quite active and love to hike and walk their dog around the neighbourhood. Both are in good health and love to cook so do not need any dining services. To continue being active and engaged with the rest of the Westman Village community, both have signed up for the Inspired Living Program. They would much rather spend their time doing the things they enjoy so have signed up for 4 hours of light housekeeping per month. Lastly, George would like a weekly health check with one of the Journey Club healthcare aids to keep him on track with his health & wellness, kind of like a personal trainer but for health. This works out to another 4 hours per month for a total of \$685 (plus GST) per month.

Gloria is now in her mid-80s and recently lost her husband of 64 years. She is still in good health but her daughter wants some assurance that Gloria is eating properly and still socially engaged. They've worked out a plan with The Journey Club where she will be part of the Inspired Living program and have someone do her housekeeping for 4 hours per month. A health care aid also regularly checks on her in the morning to ensure she slept well, assists with morning medications, and ensures Gloria is ready for breakfast. She also has someone do general health checks throughout the month for her daughter's further reassurance. Lastly, she has signed up for breakfast and dinner at Bev's Diner to visit her many new-found friends in the community and catch up with the day's events. She pays \$1,885 (plus GST) for these personalized services.
